

Senior Project Manager

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in Autonomy, Mastery and Purpose and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

Responsibilities

- Oversees various high-priority projects of mid to large size requiring considerable resources and high levels of functional integration
- Display a strong financial acumen, to include strengthening core financial literacy concepts and metrics, streamlining processes such as budgeting, forecasting, and reporting, and ensuring compliance
- Responsible for assembling technical and operational project team members, coordinating activities, assigning individual responsibilities, identifying appropriate resources needed, and developing schedules to ensure timely completion of a project
- Able to grasp concepts required to understand the overall project scope, and to communicate effectively with project team members, end users and external resources
- Manages the integration of vendor tasks and deliverables
- Competent to work at the highest levels of all phases of project leadership
- Regularly provides guidance, direction and training to less experienced project managers

Skill Requirements

- Agile and waterfall experience
- Facets experience (preferred)
- MS Project, Excel, Visio, Word.
- SharePoint and Excel, with knowledge of charting and data analysis

Experience Requirements

- Knowledge of Project Management Institute's standards and terminology is required
- Experience with managing scope/schedule/cost for software development projects
- Experience with the Scrum Agile framework
- Communication skills must be solid – clear, concise, confident speaker
- Experience leading multiple moderately-sized project teams of eight or more team members within a matrix organization
- Experience with assembling technical and operational project team members, coordinating activities, assigning individual responsibilities, identifying appropriate resources needed, and developing schedules to ensure timely completion of a project
- Experience taking projects from original concept through final implementation

Education Requirements

- Bachelor's degree in Business Administration, Economics, Health Care, Information Systems, Statistics, or a related field. Master's degree in a related field is preferred.
- Relevant combination of education and experience may be considered in lieu of degree.
- Continuous learning, as defined by the Company's learning philosophy, is required.
- PMI Project Management Professional (PMP) certification and/or Scrum Certification

Location: Southfield, MI
