

## Salesforce Developer

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in *autonomy*, *mastery* and *purpose* and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

The Bravo LT Software Developer possesses a deep understanding of the analysis, design, implementation, testing, and maintenance of web applications, from the backend to the frontend. A strong foundation in computer science, the Java language ecosystem, and modern web technologies are required.

### Responsibilities

- Translate business requirements and user stories into functional applications
- Design, build, test, and maintain reusable and reliable code within Salesforce
- Ensure the best possible performance, quality, and responsiveness of Salesforce
- Identify and devise solutions to problems with functionality or performance of Salesforce
- Help maintain code quality, organization, and automation

### Basic Qualifications

- Salesforce Developer Certification
- Bachelor's degree or master's degree in Computer Science or closely related field
- Three or more years of experience using Salesforce
- Solid understanding of object-oriented software design and related patterns
- Understanding of the Java programming language, to include Spring and REST
- Familiarity with relational databases and SQL
- Strong interpersonal and communication skills and the ability to interact with a diverse group of clients and colleagues at a high degree of professionalism
- Able to manage time effectively

### Preferred Qualifications

- Experience with AWS
- Experience writing or maintaining externally-facing APIs (SOAP and/or REST APIs)
