BravoLT

Senior Front-end Software Developer

Bravo LT needs you to be a part of our highly motivated group of technology experts. We share a passion for technology and the community we serve, and we are committed to building long-lasting, productive relationships. We focus on giving back to the community, positively impacting society, and providing quality solutions that work. We believe in *autonomy*, *mastery* and *purpose* and in trusting people to do the right thing - and we think Bravo LT is a pretty great place to be a part of.

The Bravo LT front-end software developer possesses a deep understanding of the analysis, design, implementation, testing, and maintenance of web applications. A strong foundation in computer science, front-end languages (i.e., AngularJS, JavaScript, and .NET) and modern technologies are required.

Responsibilities

- Design, code or configure, test, debug, deploy, document and maintain large and/or complex programs
- Work in a team-based, collaborative environment following sound Agile principles
- Interpret User Stories and converts them into usable features
- Develop modern front-end systems using technologies, such as AngularJS, JavaScript, and .NET
- Use a variety of software development toolkits, programming languages, and testing/verification applications, while adhering to specific development best practices and quality standards
- Validate that proposed applications align with the architectural design and with business needs
- Regularly provide guidance and training to less experienced team members

Skill Requirements

- Proficient in AngularJS, .NET, and SQL
- Deep understanding of test-driven development (TDD) practices
- Strong knowledge of and experience in front-end development. Knowledgeable in front-end tech stack, such as:
  - AngularJS
  - JavaScript
  - .NET
  - Typescript
  - CSS
  - Angular
  - React
  - Groovy
- Excellent problem-solving skills
- Ability to troubleshooting and analyze issues
- Skilled, effective, and self-sufficient in working within a diverse technology portfolio

Experience Requirements

- 4+ years of experience as a front-end developer

Education Requirements

- Bachelor's/Master's degree in Computer Science or equivalent experience

Location: Remote. Grand Rapids, MI
